
FIRST ANNOUNCEMENT

3rd **I**nternational **S**ymposium on **S**ensor **S**cience (I3S) 2005

Juelich, Germany, 18-21 July 2005

www.mdpi.org/sensors/i3s2005

After the great success of the 1st I3S 2003 in Paris, France, and the 2nd I3S 2004 in Nanjing, China, the [Aachen University of Applied Sciences](http://www.aachen-university.de) (Juelich Campus) is proud to announce the 3rd I3S 2005 in Juelich, Germany **from 18.-21. July 2005**.

The I3S is an interesting new symposium in the fast growing field of sensor science and provides an excellent platform for the “exchange” of knowledge transfer for scientists all over the world. The various key topics underline the multidisciplinary nature of this symposium. In addition, the I3S is directly associated with the open access, on-line journal “Sensors”.

The following key topics will be covered during the symposium:

- Electrochemical sensors / Biosensors,
- Electrical and coulometric sensors,
- Mass-sensitive and fiber-optic sensors,
- Gas sensors,
- Sensor applications for food industry, medicine, pharmacy, environmental monitoring, corrosion studies, etc.,
- Sensor devices and sensor arrays / Nano sensors,
- Analytical methods, modelling, readout and software for sensors,
- Sensor technology and new sensor principles.

The I3S symposium will feature:

- Plenary lectures (**45 minutes**),
- Keynote lectures (**30 minutes**),
- Oral presentations (**15 minutes**),
- Poster sessions.

The symposium will be held at the Aachen University of Applied Sciences (Juelich Campus), close to Aachen, Germany’s most westerly city. Accommodation for the participants of the symposium will be in Aachen. Daily transport from Aachen to Juelich will be arranged.
